Taylor's of Harrogate Organic Peppermint 20 Count Teabags

\$7.50

For centuries mint has been used as an aid to digestion. The natural peppermint leaves have a delightful fresh, clean flavor that makes a soothing infusion at any time of the day. We buy organically-grown peppermint for the best purity and flavor. For the perfect cup we recommend that you use one tea bag. Add freshly boiled water and infuse for 3-4 minutes. Our Pure Peppermint should be served without milk and can be sweetened with sugar or honey.
