Taylor's of Harrogate Scottish Breakfast 4.4 oz. Loose Tea Tin Cad

\$12.96

This blend comes from the Assam region of India. The geography of Assam produces many soft water areas that can have a dulling effect on tea. To prevent this, Taylor's created Scottish Breakfast, a strong cup of tea with a rich malty taste. The flavor works very well with soft water. Best served with milk, an ideal breakfast tea. This item comes with a re-usable tin.
